

Case Study

Ruxton Oaks

Blackcastle, Navan, Co. Meath

Developer: Glenveagh

Year of Completion: 2024

Region: Leinster

Sector: Residential

Kilsaran Road Surfacing was contracted by Glenveagh to deliver the full road surfacing solution at the Ruxton Oaks residential development in Navan, Co. Meath.

The project required a high-performance asphalt solution to provide long-term durability, excellent skid resistance, and a visually appealing finish for the development's roads.

The build up of the material included our AC20 Binder Course and SMA10 PMB Surface Course which was sustainably produced using reclaimed asphalt pavement (RAP) and our innovative Thermaphalt warm mix system.
