

Case Study

Shanganagh Castle Estate Shankill, Dublin 18, Co. Dublin

Main Contractor: Walls Construction

Architect & Interior Designer: ABK Architects

Civil Engineers: Punch Consulting Engineers

Sector: Residential

Region: Leinster

Year of Completion: 2025

Shanganagh Castle Estate is a landmark residential development comprising of 546 high quality units, distributed across eight multi-storey apartment blocks, complemented by an additional 51 modern duplex units.

Kilsaran supplied a range of Concrete Products and Aggregates for this project to ensure long lasting performance and a high quality finish. Our Ready-Mix Concrete provided consistent strength and durability throughout the build, while our Concrete Blocks and Bulk Aggregates further enhanced the structural stability of the development.

In addition to the concrete elements, our Paving range was also used throughout Shanganagh Castle Estate, including driveways and footpaths. The selected paving products: Trinity Blocks, ClimaPave Slane, Inish Blocks, Slane Block and Newgrange Cobbles, were chosen to complement the style of the homes and the surrounding environment. Kilsaran Masonry Mortar (M4 & M6) was also used in the construction of the houses, helping to deliver a durable and visually appealing finish.
