

Case Study

Griffeen Community College Griffeen Avenue, Lucan Co.Dublin

Contractor: JJ Rhatigan

Client: Department of Education

Rendering Contractor: CBL Construction

Sector: Educational

Region: Leinster

Year of Completion: 2026

Kilsaran supplied a range of construction materials for the development of Griffeen Community College, a modern educational facility designed to provide high-quality learning spaces for a growing community in Lucan, Co. Dublin.

The project required durable and dependable building materials across multiple stages of construction. Our KPRO UNO Ultra White One Coat Render was used as part of the building's external render façade system, helping to achieve a clean, bright and contemporary finish that complements the modern design of the school. Its excellent workability and adhesion, combined with increased productivity on site, made it a practical and efficient choice for this project.

Our Concrete Blocks formed the primary structure of the building, providing the strength, stability and long-term performance required for a large-scale educational development. Kilsaran also supplied Aggregates, Ready-Mix Concrete and Silo Mortar for the project, providing the quality, consistency and reliability required for structural, masonry and groundwork applications throughout the build.

By supplying our KPRO UNO, Concrete Blocks, Ready-Mix Concrete, Silo Mortar and Aggregates, Kilsaran helped deliver a high-quality educational facility built to serve students, staff and the wider community for years to come.
