Case Study

Premier Inn Jervis
Twilfit House, Jervis Street, Dublin

Client: Gilbert Ash

Installer: Clarke Contracts

Sector: Hospilality

Region: Leinster

Product Used: Therm CT-C25 F5

Year of Completion: 2026

Kilsaran supplied Therm CT-C25 F5 for the Premier Inn Jervis Street Hotel development in Dublin. Working alongside registered installer Clarke Contracts and client Gilbert Ash, the project required a high-performance screed solution capable of delivering consistency, efficiency and a quality finish across the development

Designed to provide excellent flow characteristics and surface regularity, Therm CT-C25 F5 enabled efficient installation while creating a durable and reliable base for subsequent floor finishes. Its performance helped support construction timelines while achieving the standards demanded by a modern hospitality project.

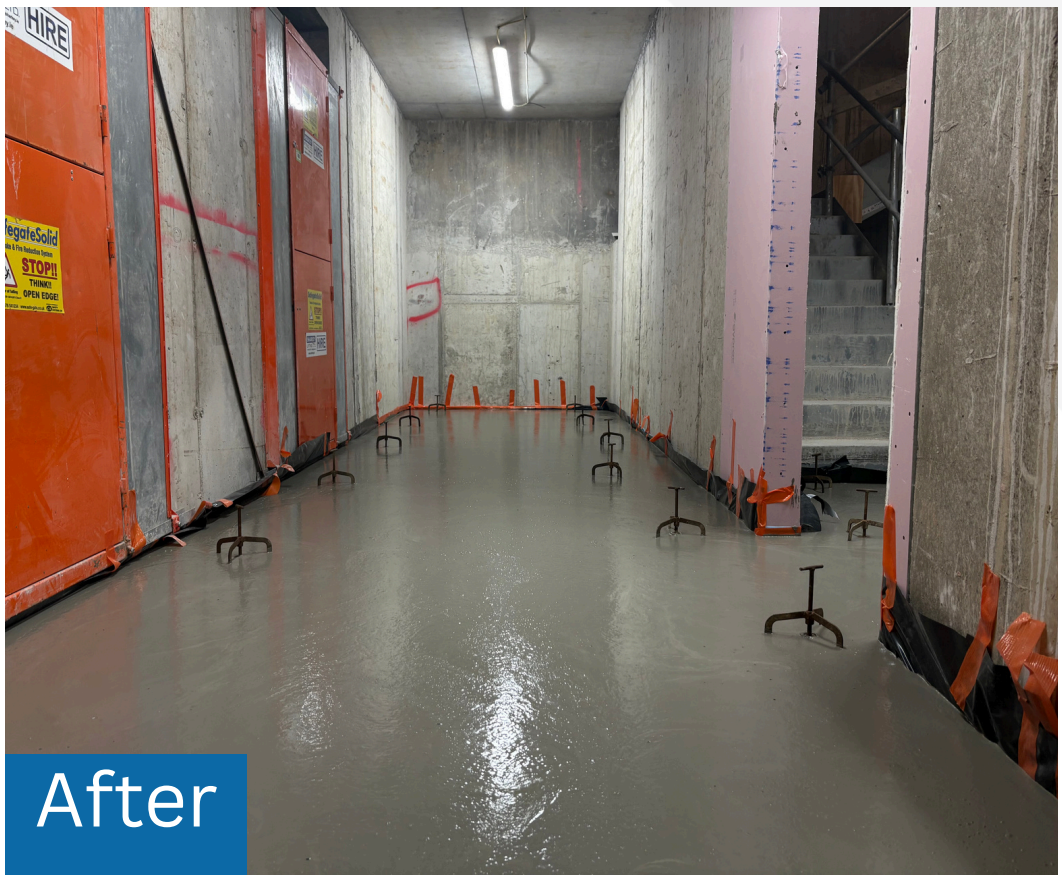

The combination of Kilsaran's screed technology and the expertise of Clarke Contracts delivered a robust flooring solution that contributed to the successful delivery of this landmark Dublin hotel development.
